

CI/CD Benefits

Without CI/CD

- ❑ Every step need a human action
- ❑ More effort from developers
- ❑ Can miss any step while deploying
- ❑ Long downtime and that leads to customer will be not satisfied

CI/CD

- ❑ Will simplify the deployment and can deploy anytime
- ❑ Automate as much as possible
- ❑ Human interactions will be reduced

What will gain if used CI/CD

- ❑ No need for human action, It will **reduce the cost**
- ❑ No missed steps while deploying, So no bugs, and that will **satisfy** the customers
- ❑ The deployment will be more quickly and will **reduce the downtime** and that will **satisfy** the customers
- ❑ High-quality and stable code, And that will **reduce the cost**
- ❑ Quick undo if any problem occurred, and that will **protect the revenue**

Thank You
